

Touch Screen Grossing Station

Evolve Your Lab With Advanced Technology

MB800

Better by Design

SAFETY

- Rounded front edge
- Forma-Fill™ on board formalin tank monitored via controller (optional)
- Redesigned air filtration system for greater performance, adjustability and noise reduction

VERSATILITY

- Track mounted adjustable computer arm with articulation
- High output, touch-free LED lighting
- Interchangeable grid plates or cutting board
- Stainless steel pegboard for versatile storage configuration
- Interactive touch screen displays formalin level, bio waste level, filter usage and ventilation performance

RELIABILITY

- Exhaust air monitoring
- Built in USB charging ports
- Double sided filters for longer use
- Built in timer for fan and filter
- Camera-imaging canopy seamlessly integrates with the industry's leading imaging systems (optional)
- Energy saving proximity power saving feature
- Dedicated USB ports for camera control and data transfer

LED lights - color and intensity adjustable

Interchangeable grid plates or cutting board

Peg board panel to add accessories

Evolve Your Lab With Advanced Technology

The NEW Touch Screen Grossing Station was designed to improve worker safety, increase operational versatility and provide more reliable equipment for your laboratory. Mopec's newest workstation focuses on ergonomics, workflow and convenience. The control panel application monitors all functions for the station, includes touch-free operation and supports a new formalin management system. The Touch Screen Grossing Station is exactly what your lab needs for optimal performance.
