

## SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) amended

### ALPHASORB 2

<b>Issue date:</b> 25 April 2015	<b>Page number:</b> 1 of 12	
<b>Revision:</b> 4 April 2016	<b>Version:</b> 4, supersedes version 3 from 11 November 2015	

#### SECTION 1: Identification of the substance/mixture and of the company/ undertaking

##### 1.1. Product identifier

Trade name                   ALPHASORB 2  
(Mixture containing potassium permanganate)

##### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses           Absorbent, air purification medium  
Uses advised against   Not available

##### 1.3. Details of the supplier of the safety data sheet

Manufacturer/Supplier       Alphasorb Technologies (Pty) Ltd  
Street address/P.O. Box     76 Rigger Road, Spartan  
Country ID/Postcode/Place   South Africa, 1620  
Telephone number           (+27) 11 394-3314  
Fax-mail                     (+27) 11 394-3383  
E-mail                         [Info@alphasorb.com](mailto:Info@alphasorb.com)  
[www.alphasorb.com](http://www.alphasorb.com)

##### 1.4. Emergency telephone number

Country	Organisation	Address	Emergency number
United Kingdom	National Poisons Information Service (Belfast Centre) <i>Royal Victoria Hospital</i>	Grosvenor Road BT12 6BA Belfast	0844 892 0111 (UK only, Monday to Friday, 08.00 to 18.00 hours)
United Kingdom	National Poisons Information Service (Birmingham Centre) <i>City Hospital</i>	Dudley Road B18 7QH Birmingham	0844 892 0111 (UK only, Monday to Friday, 08.00 to 18.00 hours)
United Kingdom	National Poisons Information Service (Cardiff Centre) <i>Gwenwyn Ward, Llandough Hospital</i>	Penarth CF64 2XX Cardiff	0844 892 0111 (UK only, Monday to Friday, 08.00 to 18.00 hours)
United Kingdom	NPIS Edinburgh (Scottish Poisons Information Bureau) <i>Royal Infirmary of Edinburgh</i>	51 Little France Crescent EH16 4SA Edinburgh	0844 892 0111 (UK only, Monday to Friday, 08.00 to 18.00 hours)
United Kingdom	Guy's & St Thomas' Poisons Unit <i>Medical Toxicology Unit, Guy's &amp; St Thomas' Hospital Trust</i>	Avonley Road SE14 5ER London	0870 243 2241 24 hours emergency
United Kingdom	National Poisons Information Service (Newcastle Centre) <i>Regional Drugs and Therapeutics Centre, Wolfson Unit</i>	Claremont Place Newcastle-upon-Tyne NE1 4LP Newcastle	0844 892 0111 (UK only, Monday to Friday, 08.00 to 18.00 hours)

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) amended

## ALPHASORB 2

**Issue date:** 25 April 2015

**Page number:** 2 of 12

**Revision:** 4 April 2016

**Version:** 4, supersedes version 3 from 11 November 2015

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

This mixture meets the criteria for classification in any hazard class according to Regulation (EC) No 1272/2008.

Physical and chemical effects	Does not meet the criteria for classification
Health effects	Skin irritation and eye damage.
Environment effects	Toxicity to aquatic life with long lasting effect.

Hazard classes and categories	Hazard statements
Skin Irrit. 2	H315 Causes skin irritation.
Eye Dam. 1	H318 Causes serious eye damage.
Aquatic Chronic 2	H411 Toxic to aquatic life with long lasting effects.

#### 2.2. Label elements

<i>Trade name</i>	<b>ALPHASORB 2</b> (Potassium permanganate)
<i>Hazard pictogram(s)</i>	
<i>Signal word</i>	Danger
<i>Hazard statement(s)</i>	Causes skin irritation. Causes serious eye damage. Toxic to aquatic life with long lasting effects.
<i>Precautionary statement(s)</i>	Do not breathe dust. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection. IF SWALLOWED: rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a doctor.
<i>Supplemental information on the label</i>	Not available

#### 2.3. Other hazards

##### 2.3.1 PBT, vPvB assessment

Mixture does not meet the criteria for PBT or vPvB in accordance with Annex XIII.

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) amended

## ALPHASORB 2

<b>Issue date:</b> 25 April 2015	<b>Page number:</b> 3 of 12
<b>Revision:</b> 4 April 2016	<b>Version:</b> 4, supersedes version 3 from 11 November 2015

2.3.2 Other hazards which do not result in classification

Ingredients of the mixture are not listed in Annex XIV of REACH or the Candidate list.

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Not relevant.

#### 3.2. Mixtures

Description: Mixture of the substances listed below including additives not requiring identification.

Name	Identifier number	Concentration (% w/w)	Classification according to CLP*
Aluminium oxide <sup>1</sup>	EC: 215-691-6 CAS: 1344-28-1 Index No.: not available	<70	Not classified
Sodium carbonate	EC: 207-838-8 CAS: 497-19-8 Index No.: 011-005-00-2	< 5	Eye Irrit. 2, H319
Potassium permanganate	EC: 231-760-3 CAS: 7722-64-7 Index. No.: 025-002-00-9	≤10	Acute Tox. 4 (oral) H302 Ox. Sol. 2 H272 Aquatic Acute 1 H400 Aquatic Chronic 1 H410 Skin Corr. 1C H314**

Notes:

\* For full text of H-statements and the information on the classification procedure see SECTION 16.

\*\* Filled with new information based on test results (EU Method B.4 (Acute Toxicity: Dermal Irritation / Corrosion

<sup>1</sup> Union workplace exposure limits

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

<b>General notes</b>	In the case of health problems or if in doubt, inform a doctor and give him information from this Safety Data Sheet. In case of unconsciousness, bring the affected person into stable side position for transport. Do not induce vomiting. If the affected person vomits by himself, take care to prevent aspiration. In the case of a life-threatening event, perform CPR and call a doctor. Respiratory arrest - immediately apply artificial respiration. Cardiac arrest - immediately perform indirect heart massage.
<b>Ingestion</b>	DO NOT INDUCE VOMITING. Rinse mouth, drink 200-300 ml of cold water. Immediately call a doctor.
<b>Inhalation</b>	Move person to fresh air and keep comfortable for breathing. In case of persistent symptoms, consult a doctor.
<b>Eye contact</b>	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing 10-30 minutes from the inner corner to the outer, so as not to hit the other eye. Immediately call a doctor.
<b>Skin contact</b>	Instantly remove any clothing soiled by the product. Rinse cautiously with water for 10-30 minutes. Secure the affected person to hypothermia. If skin irritation occurs get medical advice.

according to Regulation (EC) No. 1907/2006 (REACH) amended

## ALPHASORB 2

**Issue date:** 25 April 2015

**Page number:** 4 of 12

**Revision:** 4 April 2016

**Version:** 4, supersedes version 3 from 11 November 2015

*Self-protection of the first aider* Not necessary

### 4.2. Most important symptoms and effects, both acute and delayed

Following eye or skin contact: skin irritation and eye damage.

### 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Treatment is symptomatic.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

Suitable extinguishing media Water jet, water mist, foam, carbon dioxide (CO<sub>2</sub>), dry powder.

Unsuitable extinguishing media Water high volume

### 5.2 Special hazards arising from the substance or mixture

Product releases oxygen when heated strongly which can intensify a fire.

During a fire can release harmful products. Do not breathe combustion products.

### 5.3 Advice for firefighters

Protective equipment: Wear self-contained breathing apparatus.

### 5.4 Additional information

Remove the product away from fire, if possible. Use water to keep fire exposed containers cool.

Remove remnants of extinguishing agents in accordance with the law.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with the product. Wear a protective equipment. Do not breathe dust.

### 6.2 Environmental precautions

Avoid release to the environment (surface and ground water) and sewage.

### 6.3 Methods and material for containment and cleaning up

Collect mechanically and dispose in suitable containers. Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.

When release in larger quantities occurs, inform appropriate authorities.

### 6.4 Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for information on disposal.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Prevent formation of dust. Any deposit of dust which cannot be avoided must be removed regularly. During work, do not eat, drink and smoke. Do not breathe dust. Use personal protective equipment specified in section 8. Maintain good personal hygiene. Follow valid regulations on health and safety.

**Issue date:** 25 April 2015

**Page number:** 5 of 12

**Revision:** 4 April 2016

**Version:** 4, supersedes version 3 from 11 November 2015

### 7.2 Conditions for safe storage, including any incompatibilities

Store only in the original container. Protect from moisture. Keep container tightly sealed.

### 7.3 Specific end use(s)

No further relevant information available.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### 8.1.1 Occupational exposure limits

European occupational exposure limits (OEL)

Ingredient	CAS Number	Workplace exposure limit (WEL)			
		Long-term exposure limit (8-hr TWA reference period)		Short-term exposure limit (15 minute reference period)	
		ppm	mg.m <sup>-3</sup>	ppm	mg.m <sup>-3</sup>
Aluminium oxides inhalable dust respirable dust	1344-28-1	-	10	-	-
Manganese and its inorganic compounds (as Mn)	--	-	0.5	-	-

#### 8.1.2 Biological limit values

	DNEL worker	DNEL consumer	PNEC
<b>Mixture</b>	Not available	Not available	Not available
<b>Potassium permanganate</b>	Dermal, long-term, local = 0.03 mg/kg bw/day (human) Dermal, long-term, systemic = 1.25 mg/kg bw/day (human)	Oral, long-term, systemic = 0.02 mg/kg bw/day (human) Dermal, long-term, local = 0.03 mg/kg bw/day (human) Dermal long-term, systemic = 0.2 mg/kg bw/day (human) Inhalative, long-term, local = 0.03 mg/m <sup>3</sup> (human)	STP = 1.64 mg/L aqua (freshwater) = 0.00006 mg/L aqua (intermittent releases)= 0.0006 mg/L

#### 8.1.3 Exposure limits at intended use

Not available

### 8.2 Exposure controls

Keep away from foodstuffs, beverages and food. Take off immediately all contaminated clothing. Wash contaminated clothing before reuse. Wash hands during breaks and at the end of the work. Avoid contact with the eyes and skin.

*Eye/face protection* Tightly sealed safety glasses.

*Skin protection* Material of gloves: Nitrile rubber, NBR  
Recommended thickness of the material: ≥ 0.4 mm

*Respiratory protection* When dusts are generated, wear respiratory protection. Filter P2.

*Thermal hazard* No relevant information available.

*Environmental exposure controls* Avoid release to the environment (surface and ground water) and sewage.

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) amended

## ALPHASORB 2

<b>Issue date:</b> 25 April 2015	<b>Page number:</b> 6 of 12
<b>Revision:</b> 4 April 2016	<b>Version:</b> 4, supersedes version 3 from 11 November 2015

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

<i>Appearance</i>	Solid beads
<i>State</i>	Solid
<i>Colour</i>	Violet
<i>Odour</i>	Odourless
<i>Odour threshold</i>	Not determined
<i>pH</i>	Not available
<i>Melting point/freezing point</i>	Not available
<i>Initial boiling point and boiling range</i>	Not available
<i>Flash point</i>	Not applicable – mixture of inorganic substances
<i>Evaporation rate</i>	Not available
<i>Flammability (solid, gas)</i>	Not flammable
<i>Upper/lower flammability or explosive limits</i>	Not determined
<i>Vapour pressure</i>	23 hPa at 20°C
<i>Vapour density</i>	Not determined
<i>Relative density</i>	Not determined
<i>Solubility(ies)</i>	Partly soluble in water.
<i>Partition coefficient: n-octanol/water</i>	Not applicable – mixture of inorganic substances
<i>Auto-ignition temperature</i>	Product is not self-igniting.
<i>Decomposition temperature</i>	Not determined
<i>Viscosity</i>	Not determined
<i>Explosive properties</i>	Product is not explosive.
<i>Oxidising properties</i>	Product is not oxidising. – test according to UN Handbook Test and Criteria Division 5.1 section 34.4.1

#### 9.2 Other information

<i>Bulk density</i>	800 kg/m <sup>3</sup> at 20°C
---------------------	-------------------------------

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No decomposition if used according to specifications.

The content of potassium permanganate is not sufficient to classify the product as oxidizing (test according to UN Handbook Test and Criteria Division 5.1 section 34.4.1).

#### 10.2 Chemical stability

Stable under standard conditions (20°C, 101.3 kPa).

#### 10.3 Possibility of hazardous reactions

In case of influence by acids decomposition possible with CO<sub>2</sub> being formed at the same time.

# SAFETY DATA SHEET

## ALPHASORB 2

**Issue date:** 25 April 2015

**Page number:** 7 of 12

**Revision:** 4 April 2016

**Version:** 4, supersedes version 3 from 11 November 2015

### 10.4 Conditions to avoid

No further relevant information available.

### 10.5 Incompatible materials

No further relevant information available.

### 10.6 Hazardous decomposition products

None in case of intended use and storage in compliance with instructions.

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

#### Acute toxicity

Mixture: Based on available data, the classification criteria are not met. ATE (oral)<sub>mixture</sub> >> 2 000.

The results of toxicological tests for relevant ingredients:

Ingredient	Method	Value
Potassium permanganate	Oral, rat, Method B.1 tris Acute Oral Toxicity - Acute Toxic Class Method, Directive 2004/73/EC.	LD <sub>50</sub> >2 000 mg/kg bw
	Substance with harmonised classification Acute Tox. 4 H302	ATE oral = 500 (Used for the calculation of the ATE <sub>mixture</sub> )
	Inhalation	Not available
	Dermal EU Method B.3 (Acute Toxicity (Dermal))	LD <sub>50</sub> > 2 000 mg/kg bw

#### Skin corrosion/irritation

According to study: "Alphasorb ESP1000: The Corrositex® Assay" (method OECD 435) the test item was considered to be NON-CORROSIVE.

ALPHASORB 8 contain less of hazardous components and are therefore also considered to be non-corrosive.

Skin irritation was not tested by this method, so the mixture is classified Causes skin irritation.

#### Serious eye damage/irritation

Causes serious eye damage.

#### Respiratory or skin sensitisation

Based on available data the classification criteria are not met.

#### Germ cell mutagenicity

Based on available data the classification criteria are not met.

#### Carcinogenicity

Based on available data the classification criteria are not met.

#### Reproductive toxicity

Based on available data the classification criteria are not met.

#### STOT - single exposure

Based on available data the classification criteria are not met.

#### STOT-repeated exposure

Based on available data the classification criteria are not met.

#### Aspiration hazard

Based on available data the classification criteria are not met.

**Revision:** 4 April 2016

**Version:** 4, supersedes version 3 from 11 November 2015

### SECTION 12: Ecological information

#### 12.1. Toxicity

Mixture: Toxic to aquatic life with long lasting effects.

The results of toxicological tests for relevant ingredients:

Ingredient	Method	Value
Potassium permanganate	Daphnia magna (EU C.2), 48h	EC50 (static) = 0.06 mg/l
	Desmodesmus subspicatus (EU C.3)	ErC50 (static) = 0.8 mg/l
	Poecilia reticulata (EU C.1), 96h	LC50 (static) = 0.47 mg/l

#### 12.2 Persistence and degradability

Not applicable.

Ready biodegradability - the study does not need to be conducted if the substance is inorganic.

#### 12.3 Bioaccumulative potential

Not applicable.

Log Pow of the mixture – not available. The study does not need to be conducted if the substance is inorganic.

BCF mixture - not available

#### 12.4 Mobility in soil

Unlikely. Partition coefficient n-octanol/water is not available.

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

#### 12.6 Other adverse effects

No further relevant information available.

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

The waste code numbers mentioned are recommendations based on the probable use of the product. Disposal must be made according to official regulations and waste hierarchy as defined in the Waste Framework Directive.

Waste should not be disposed of by release to sewers.

Final decisions on the appropriate waste management method, in line with regional, national and European legislation, and possible adaptation to local conditions, remains the responsibility of the waste treatment operator.

#### Recommended waste codes based on European waste catalogue

15 00 00 WASTE PACKAGING; ABSORBENTS, WIPING CLOTHS, FILTER MATERIALS AND PROTECTIVE CLOTHING NOT OTHERWISE SPECIFIED

product residues - Fresh product

15 02 Absorbents, filter materials (including oil filters not otherwise specified), wiping cloths, 02\* protective clothing contaminated by dangerous substances (\* Hazardous waste).

product residues - Spent product

15 02 03 Absorbents, filter materials, wiping cloths and protective clothing other than those mentioned in 15 02

waste containers:

15 01 Packaging containing residues of or contaminated by dangerous substances

# SAFETY DATA SHEET

## ALPHASORB 2

<b>Issue date:</b> 25 April 2015	<b>Page number:</b> 9 of 12
<b>Revision:</b> 4 April 2016	<b>Version:</b> 4, supersedes version 3 from 11 November 2015

10\* (\*Hazardous waste).

### 13.2 Additional information:

Fresh product – Irritant - HP4, Ecotoxic – HP14.

Spent product - Once the product is almost spent, all of the  $KMnO_4$  is converted to manganese dioxide ( $MnO_2$ ). Producer offers remaining life testing, that is, after the customer has installed the product for around 6 months he sends back a small sample for testing, when we grind the pellets they are completely brown from inside out which indicates that the  $KMnO_4$  has been reduced to manganese dioxide. Initially, the pellets start off as a dark pink to violet colour. If all the manganese dioxide reacts with the contaminants it changes to an off white coloured pellet.

## SECTION 14: Transport information

The mixture is considered a dangerous good for transportation regulations for reasons of environmental hazards.

### 16.4 Classification for mixtures and used evaluation method according to CLP

According to Annex I CLP Regulation is a mixture classified as a skin irritant, with irreversible effects on the eye and dangerous for the environment. The mixture was tested on skin corrosion by OECD method 435 (In Vitro Membrane Barrier Test Method for Skin Corrosion), according to the results of the test were evaluated as a mixture of non-corrosive. By this method cannot be excluded skin irritation and effects on the eyes and therefore these risks are evaluated according to the calculation method (Annex I, section 3.2 and 3.3).

Class	Classification procedure
2.14. Oxidizing solids	Properties of the mixture – test according to UN Handbook Test and Criteria Division 5.1 section 34.4.1 – not classified
3.1. Acute toxicity	Calculation method (generic concentration limits) ATE of the mixture >>2000 – not classified
3.2. Skin irritation	According to study: "Alphasorb ESP1000: The Corrositex® Assay" (method OECD 435) the test item was considered to be NON-CORROSIVE. ALPHASORB 2 contain less of hazardous components and are therefore also considered to be non-corrosive. Skin irritation was not tested by this method, so the mixture is classified as irritant.
3.3 Serious eye damage/Eye irritation	Calculation method (generic concentration limits)

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH) amended

## ALPHASORB 2

**Issue date:** 25 April 2015

**Page number:** 12 of 12

**Revision:** 4 April 2016

**Version:** 4, supersedes version 3 from 11 November 2015

4.1. Hazardous to the aquatic environment

Summation method: Table 4.1.2: Classification of a mixture for long-term hazards, based on summation of the concentrations of classified components

$(M \times 10 \times \text{Chronic 1}) + \text{Chronic 2} \geq 25\% = \text{Chronic 2}$

### 16.5 List of relevant hazard statements

H272	May intensify fire; oxidiser.
H302	Harmful if swallowed.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H318	Causes serious eye damage.
H319	Causes serious eye damage.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.

### 16.6 Training advice

Familiarise the staff with the recommended use, the protective equipment, first aid and restrictions when handling the mixture.

### 16.7 Compiler of the Safety Data Sheet

This Safety Data Sheet has been compiled by EcoMole Ltd. ([www.ecomole.com](http://www.ecomole.com))
