

Better By Design™

Anatomy Labs

Equipment and Accessories for the Learning Environment

ANATOMIC PATHOLOGY | MEDICAL EXAMINER/MORGUE | ANATOMY LABS | NECROPSY

Enhance Education With Innovative Lab Design

BODY MANAGEMENT

Mopec's dissection tables are designed for the dissection lab application. Our menu provides the selection required to meet the individual lab's needs. We offer standard dissection tables, multi-body systems, dip tank options, accessories and custom capabilities to create a true learning work station.

TRANSPORTATION

Properly transporting and handling of cadavers is paramount to maintaining safety. Mopec has a wide array of products to support your safe transport and handling needs. Our racks, body trays, carriers, pallet systems and lifts all work together seamlessly to provide a safe, convenient experience.

REFRIGERATION

Our cooler selection consists of walk-in, small door, forensic lab and cadaver locker units that are built with a telescoping or conveyor tray system. Unique to Mopec's coolers is Sanisteel®, an anti-bacterial coating embedded into the walls of select models. All coolers can be ordered as a refrigerator or freezer.

CASEWORK

Mopec provides plenty of options for storing specimens or accessories. Whether you have a need for wall mount, base, corner, ventilated, free-standing, portable or specialty casework, we can assist you. Our cabinets' height and width can be customized to suit your lab's needs.

ACCESSORIES

Instruments and cleaning supplies are essential to a safe working environment. Mopec offers a variety of cleaners, disinfectants, deodorizers and specialty instruments to complement your lab's capital equipment. Custom instrument kits are available.

DESIGN & ENGINEERING FOR A SAFE LEARNING ENVIRONMENT

Mopec engineers will work as a partner with your project team to create or renovate your anatomy lab. We can provide ideas and concepts illustrating the workflow through the facility with full 3D rendered models. Our team will provide detailed product information for the end user, facility engineer and contractors. We are also available to provide on-site project assistance and review.

PLANNING & WORKFLOW

- NEEDS ANALYSIS
- PROPOSAL REVIEW
- SYSTEMS APPROACH
- DESIGN
- VALIDATION
- DELIVERY
- INSTALLATION
- TRAINING AND SUPPORT

FABRICATION FACILITY

- Fully computerized fabrication equipment
- Live job tracking through the fabrication process
- Lean manufacturing is used to streamline workflow
- ISO Certified 9001

CUSTOM ENGINEERED AND MANUFACTURED TO FIT YOUR REQUIREMENTS

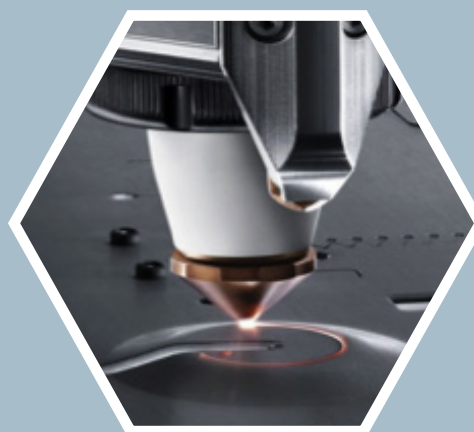

- Custom equipment built to your needs and standards
- Conceptual product design
- Fully engineered plans
- Value engineering
- Ergonomics and safety
- Products engineered to meet performance requirements

Mopec's turnkey systems approach to anatomy lab development creates comprehensive cadaver management programs that expand recruitment, retention and user safety for learning environments.

About Mopec

Mopec is committed to designing and manufacturing equipment and accessories to enhance your facility's safety, flexibility and productivity. Our technical prowess stems from a commitment to quality craftsmanship and high-touch service. Mopec is recognized globally for giving clients an unrivaled experience including design, manufacturing, installation and post-sales support. The industries we serve include anatomic pathology, anatomy lab, medical examiner/morgue and necropsy.

INDUSTRIES WE SERVE

Anatomic Pathology

Medical Examiner/Morgue

Anatomy Labs

Necropsy
