Global Reach, Local Access

Mopec has operated with the philosophy of “Design it Better” since 1992. Our evolution as an industry leader was achieved by listening to the ever changing market requirements of hospitals, universities and morgues across the globe. Working through local distribution partners, Mopec continues to deliver a personal customer experience, creating an unprecedented brand loyalty. Through our experience, expertise, imagination and craftsmanship we are able to design solutions that manage staff safety, ergonomics and workflow for the markets we serve.

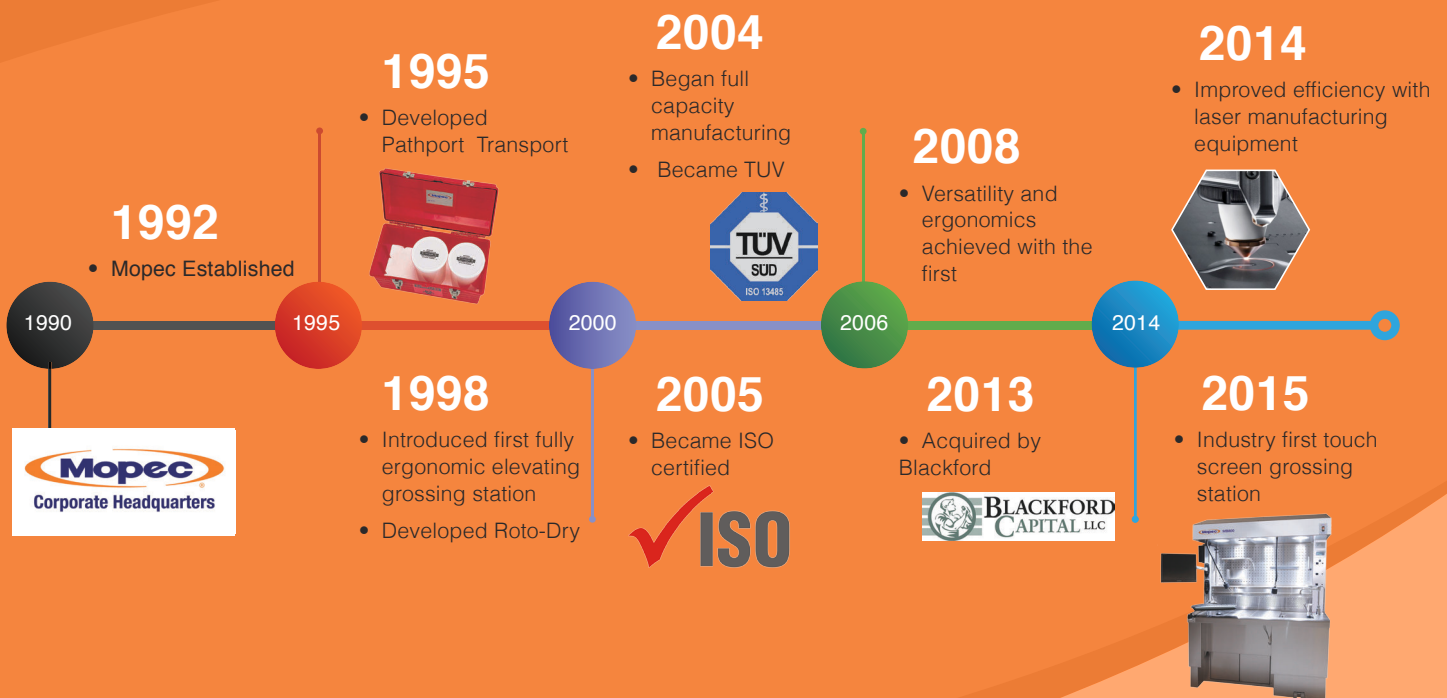

Mopec equipment
can be found in
over 90 countries
around the world.

OUR KEY CAPABILITIES

- Top-quality materials
- Innovators of lab design
- Full customer engagement
- State-of-the-art manufacturing
- Product customization available
- Robust in-house engineering team
- 100 years of combined industry experience
- Equipment designed for specific market applications

Our Purpose

Mopec's purpose is to deliver superior equipment to the pathology, mortuary and necropsy industries. The utilization of our industry expertise and commitment to partners is unmatched. Our goal is to continue growing Mopec's global brand through customized design solutions and enhanced customer satisfaction.

PRODUCT EXCELLENCE

Mopec is committed to designing and manufacturing equipment and accessories to enhance your facility's safety, flexibility and productivity. Our technical prowess stems from a commitment to quality craftsmanship and high-touch service. Our design and engineering team can work with you on new construction sites or renovations and additions. We offer layout and equipment solutions, recommendations for best use of available space, and custom equipment to fit customer requirements. Mopec is recognized globally for giving clients an unrivaled experience including design, manufacturing, installation and post-sales support.

INDUSTRIES WE SERVE

ANATOMICAL PATHOLOGY

Grossing stations are the hallmark of our product portfolio. We design equipment for medical centers and research facilities that are created to evolve with demands of technology, clinical needs and outcomes.

MEDICAL EXAMINER/MORGUE

We specialize in comprehensive autopsy suite design that considers safety, workflow and storage. We customize all equipment to fit your lab specifications.

ANATOMY LABS

Our state of the art equipment is integral to facilitating the learning process in universities and other educational institutions. We provide innovative lab designs that enhance recruitment, retention and user safety.

NECROPSY

We work with research facilities, universities, zoos and departments of natural resources to customize equipment that has the versatility of managing animals, both large and small.

Understanding the Lab Design Process

NEEDS ANALYSIS

We begin the conversation with architects, equipment planners and directors to uncover current and future requirements. Our partnership with the users is paramount to designing the best products.

PROPOSAL REVIEW

After we understand the team's prerequisites a proposal is created to address safety, ergonomic and workflow concerns.

SYSTEMS APPROACH

We develop comprehensive plans that consider floor layout, integrated technology, plumbing, electrical and HVAC needs.

DESIGN

Upon completion of full system consideration, the project is sent to our engineering department for customization recommendations and manufacturing plans.

VALIDATION

The submittal packages are sent to architects and equipment planners for submission, edits and client approval.

DELIVERY

A timeline for project completion is developed, manufacturing begins and the project is shipped according to delivery date.

INSTALLATION

Our factory installation team is sent to your facility to make sure products are properly connected with all plumbing, electrical, HVAC and integrated technologies.

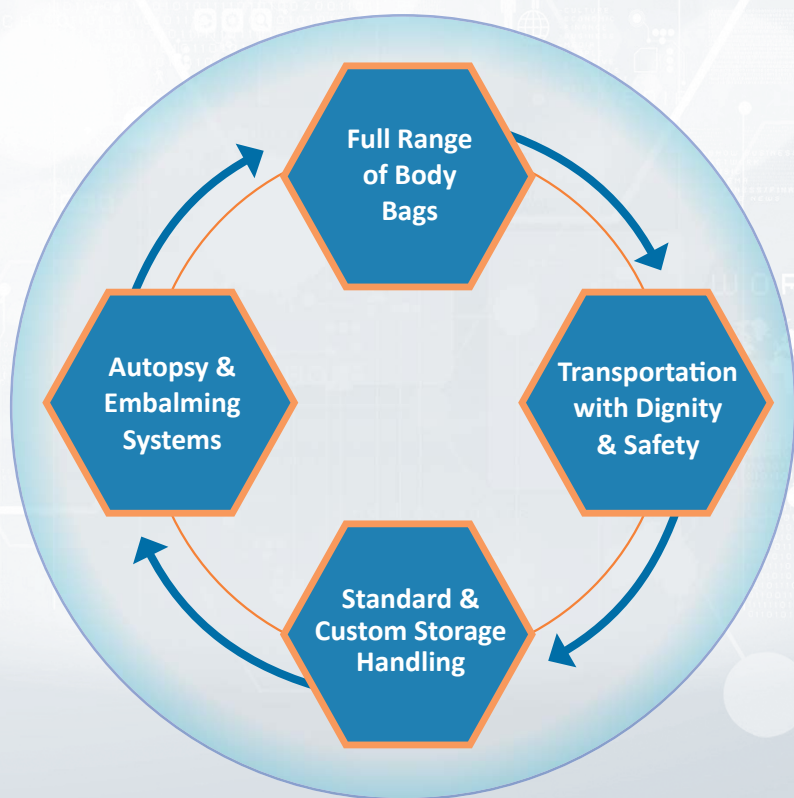

TRAINING AND SUPPORT

All capital equipment comes with a warranty, a technical manual, post-sales services and customer engagement.

ENHANCE YOUR NEW LAB

Mopec recommends that you invest in instruments, accessories and cleaners for the optimal lab experience.

Post Mortem Management

COMPLEMENT YOUR LAB EQUIPMENT

SANITIZERS

- *Cleaners*
- *Disinfectants*
- *Deodorizers*

ACCESSORIES

- *Body Bags*
- *Saws & Blades*
- *Scales & Carts*
- *Positioning Devices*

INSTRUMENTS

- *Scissors*
- *Forceps*
- *Sharpeners*
- *Blade Removers*
- *Scalpels & Knives*
- *Dissecting Tools & Aids*
- *Staplers, Needles & Thread*

Design, Engineering & Manufacturing

Your partner in excellence, every step of the way

Mopec has a full engineering team that provides Renderings, CAD Drawings, Revits and customizations. All engineering is completed in-house and never outsourced to maintain complete control of the project from concept through completion. Our state-of-the-art manufacturing facility includes laser cutting, welding and fabrication to ensure the highest quality custom products. In everything we engineer and manufacture, we make sure it's better by design.
