

Better By Design™

Medical Examiner/Morgue

Unique Space, Science and Design

Enhance Your Autopsy Suite with Innovative Technology

AUTOPSY EQUIPMENT

We offer autopsy sinks, tables, carts and cart tops. We also offer embalming sinks and x-ray tables. Our products work together seamlessly to assure full compatibility of products for the autopsy and embalming process.

TRANSPORT

We support cadaver transport and handling efforts with a full selection of compatible racks, body trays, carriers, pallet systems and lifts.

REFRIGERATION

Our cooler selection consists of walk-in, small door, forensic lab and cadaver locker units that are built with a telescoping or conveyor tray system. Unique to Mopec's coolers is Sanisteel®, an antibacterial coating embedded into the walls of select models. All models can be ordered as a refrigerator or freezer.

CASEWORK

Mopec provides plenty of options for storing specimens or accessories. Whether you have a need for wall mount, base, corner, ventilated, free-standing, portable or specialty casework, we can assist you. Our cabinets' height and width can be customized to suit your lab's needs.

CLEANERS

Proper suite hygiene is essential to worker safety and autopsy integrity. Mopec offers a variety of cleaners, disinfectants and deodorizers to maintain equipment and instrument cleanliness.

AUTOPSY ACCESSORIES AND INSTRUMENTS

Complete your autopsy suite with Mopec accessories and instruments. Our autopsy accessories include saws, dissection boards, lighting, positioning devices, body bags and a variety of dissecting instruments.

DESIGN & ENGINEERING FOR A SAFE AUTOPSY ENVIRONMENT

Mopec engineers will work as a partner with your project team to create or renovate your autopsy suite. We provide ideas and concepts illustrating the workflow through the facility with full 3D rendered models. Our team will provide detailed product information for the end user, facility engineer and contractors. We are also available to provide on-site project assistance and review.

PLANNING & WORKFLOW

- NEEDS ANALYSIS
- PROPOSAL REVIEW
- SYSTEMS APPROACH
- DESIGN
- VALIDATION
- DELIVERY
- INSTALLATION
- TRAINING AND SUPPORT

FABRICATION FACILITY

- Fully computerized fabrication equipment
 - Live job tracking through the fabrication process
 - Lean manufacturing is used to streamline workflow
- ISO Certified 9001

CUSTOM ENGINEERED AND MANUFACTURED TO MEET YOUR REQUIREMENTS

- Custom equipment built to your needs and standards
- Conceptual product design
- Fully engineered plans
- Value engineering
- Ergonomics and safety
- Products engineered to meet performance requirements

Mopec is experienced in customizing autopsy suites that consider safety, workflow and storage. We design and manufacture all equipment to fit your suite specifications.

About Mopec

Mopec is committed to designing and manufacturing equipment and accessories to enhance your facility's safety, flexibility and productivity. Our technical prowess stems from a commitment to quality craftsmanship and high-touch service. Mopec is recognized globally for giving clients an unrivaled experience including design, manufacturing, installation and post-sales support. The industries we serve include anatomic pathology, medical examiner/morgue, anatomy labs and necropsy.

INDUSTRIES WE SERVE

Anatomic Pathology

Medical Examiner/Morgue

Anatomy Labs

Necropsy
