

Mopec Can Help You Prepare

Recent months have demonstrated that preparation is the key to a successful response to mass fatality events, natural disasters and public health crises. Rather than developing a response plan and sourcing critical supplies in the midst of a crisis, experts recommend an emergency preparedness plan. Whether you're looking for stockpile replenishment, surge capacity, COVID-19 products or morgue equipment, Mopec can help you find the right solution.

MOBILE MORGUE TRAILERS

Refrigerated Morgue Trailers available for purchase or on a rental basis. Designed with usability in mind.

COLD STORAGE CONTAINERS

Guardian refrigerated storage units provide total solutions for overflow and isolation of bodies complete with racks, trays, lifts, and bags.

QUICK-DEPLOY MORGUE RACKS

Suitable for refrigerated trailers or other cooled structures. 3, 4, and 5 tier designs available. Easy to assemble and disassemble – only 8 bolts!

AIR FILTERS & UVC DISINFECTING

We've taken the same ingenuity behind the Mopec Maestro Grossing Station, the safest grossing station available, and developed two new products to improve laboratory disinfection processes and help keep lab workers safe.

MERC SYSTEM

Mopec offers the only direct contact human remains cooling system that is completely portable, scalable and interoperable.

BODY BAGS

Light Duty Body Bags & Heavy Duty Disaster Pouches For Postmortem Use. Buy American Act Compliant Bags In Stock. BSL 4 Safe Seal Available.

PERSONAL PROTECTIVE EQUIPMENT

In stock Personal Protective Equipment (PPE) to keep your team safe and prepared. Small and bulk quantities available.

MAXAIR CAPR®

The most innovative and easy-to-use Powered Air-Purifying Respirator available. No fit testing. No N95 masks. Exclusively available from Mopec in the Pathology, Autopsy, Mortuary, Medical Examiner/Coroner, Funeral Home, and Anatomy Lab markets.
