

Mopec *1000*
AUTOPSY SAW

Mopec 1000 Autopsy Saw

The Mopec 1000 Autopsy Saw has a rugged construction and a machined aluminum housing that reduces heat and noise. The On/Off switch is designed and placed so that it will not break if dropped. Designed for removing the cranial cap, making linear cuts, or sectioning small bone specimens. The Mopec 1000 Autopsy Saw is the trusted solution to those who are looking for an economical alternative to a Mopec 810 Autopsy Saw.
