

Bariatric Covered Cadaver Carrier

Mopec's Bariatric Covered Cadaver Carrier is engineered to provide stable, dependable transport for heavy-duty mortuary applications. The hydraulic crank system allows smooth, controlled height adjustment. Designed for reliability and ease of use, it supports consistent performance in mortuary and pathology settings.

600039-1K

SPECIFICATIONS

Construction

- (3) 8" diameter casters with brakes
- (1) 8" diameter caster with directional locking capabilities
- Includes non-removable tray top welded to cart
- Hydraulic hand crank powered actuators raise the whole top with an elevation of 12"
- Includes removable canopy frame and fabric cover

Capacity

- 1,000 lbs

Materials

- 11ga 1.5" SQ 304 Stainless steel carrier frame with a 180-grit polish finish
- 304 Stainless steel carrier top with a No. 4 polish finish
- Canopy frame is made of sturdy, lightweight aluminum

Dimensions

- 84" L X 36" W X 26.8" to 38.8" H (12" of elevation)
- Canopy Frame: 84" L X 36" W X 17.4" H

Performance

- Raise or lower the carrier with ease. Crank the handle clockwise to raise the carrier or counterclockwise to lower. Simply release the crank when the carrier is at the desired height.
