

Counter Down-Back Draft Workstation

Mopec's BF450 Workstation is a compact, self-contained countertop dual-draft workstation designed for small labs performing dissection, trimming, and staining procedures. It has a shelf on top with a light beneath it and has both downdraft and backdraft functions. It connects to your facility ventilation system, sucking harmful fumes out of your work area and right out of the building. Engineered with all-stainless-steel construction, the BF450 features Mopec's Dual-draft ventilation system for safe and effective fume removal.

BF450
