

Embalming Table, Various Sizes

Designed for efficiency and durability, Mopec’s Embalming Table for Trays provides a stable work surface ideal for embalming and tray-based procedures. Its corrosion-resistant stainless steel construction ensures long lasting performance, while the smooth, sloped surface promotes optimal fluid drainage. Built for mortuary and pathology environments, this table enhances workflow and reliability in daily operations.

SPECIFICATIONS

Construction

- (10) Nylon rollers to allow for smooth movement of trays on the table
- Safety latches to secure the tray in place during moving
- (2) tray rinse bars to keep fluids flowing during the embalming process
- Integrated downdraft system to pull fumes down and away from the table surface
- (4) 8” locking casters
- GFCI Duplex receptacle with waterproof cover
- Quick connections for both the rinse assembly and electrical

Materials
