

RIDGE Large Magnetic Powder Applicator

The Ridge™ Large Magnetic Latent Print Powder Wand features a durable high-density polyethylene shell and a long-lasting, spring-loaded steel handle with a powerful neodymium magnet. Designed for repeated use, it holds more magnetic powder than standard applicators, helping speed up latent print processing.

FS020

SPECIFICATIONS

Construction

- Spring loaded handle
- Plexiglas protective tube

Dimensions

- 5.53" L

Materials

- High-density polyethylene
- Neodymium
- Long-lasting steel

Performance

- Hundreds of applications
- Picks up magnetic powder
- Expedites processing crime scenes
