

Aluminum False Frame and Cover

The Mopec Aluminum False Frame is a lightweight, removable frame designed to fit onto compatible Mopec cadaver carriers. Made of aluminum and paired with a cover, it gives the carrier the appearance of a standard gurney during transport. This frame helps ensure discretion and dignity, while remaining easy to install or remove as needed.

SPECIFICATIONS

Construction

- The aluminum false frame can be lifted and removed from the cadaver carrier for ease of cadaver transport
- The cadaver cover provides discrete transport of the cadaver within a workplace
