

Urea (Nitrate) Test Kits

The Urea (Nitrate) Test Kit provides rapid, on-site detection of urea, a precursor that can be used in the formation of urea nitrate, a component in improvised explosive devices, using sealed, contact-free ampoule technology. It delivers clear results in seconds, requires no mixing or measuring, and is designed for simple use with high sensitivity to trace residues.

FS413

SPECIFICATIONS

Construction

- Easy-to-crush numbered, glass ampoules

Performance

- 3-year expiration date
 - Color test for presence of Urea
- Used to confirm the presence and identity of Urea nitrate with FS411 (sold separately)

- Clearly visible colors for identification
- Immediate, reliable results
- Environmentally safe
- No chemical leakage
- Chemical-free experience for operator
- High sensitivity to trace amounts
- Simple to use

Materials

- Plastic
- Glass

Quantity

- 10 test kits

Options & Accessories

- FS411: TNT/RDX, PETN/Nitrate Test Kits
