

Invisible Thief Detection Powder, 2 oz (Various Colors)

The Invisible Thief Detection Powder is a non-toxic fluorescent forensic powder to help identify individuals who have handled or tampered with treated items. Available in various colors, the powder transfers upon contact and creates a long-lasting visible stain on skin that fluoresces brightly under UV light for reliable identification.

SPECIFICATIONS

Construction

- Designed for indoor theft deterrence and investigation
- Available in various colors for application
- Color should be compatible to the surface color of the protected item
- Color options are designed to blend with nearly any background to avoid detection by the thief

Performance

- Detects handling or tampering of treated items
- Transfers to skin and clothing upon contact
- Fluoresces a different color from what was applied under long-wave UV light (black light)
- Stain intensifies and persists even after washing

Capacity

- 2 oz
