

Presumptive Drug Tests

Presumptive drug testing pouches used for rapid field screening of suspected substances. Each pouch contains sealed reagent ampules designed to produce immediate color reactions for preliminary drug identification.

SPECIFICATIONS

Construction

- Heavy-duty, flexible plastic pouch
- Pre-filled, hermetically sealed glass ampules
- Plastic harness
- Drug loading device

Quantity

- 10 Tests per box

Performance

- Presumptive drug screening in the field
- Produces rapid color-change results
- Supports probable cause for further investigation
- Allows quick on-site testing of unknown substances
- Can assist in screening multiple drug types (depending on test used)
- Results compared to color chart for interpretation
