

Pocket Magnifier

A compact, portable, and foldable handheld magnifier designed for basic forensic and field examination tasks, such as viewing latent prints at a crime scene. Provides clear magnification while being protected inside a folding, felt-lined leatherette case when not in use. This protective case helps prevent scratches and damage to the lens during transport or storage.

FT336

SPECIFICATIONS

Construction

- Pocket-sized
- Portable

Dimensions

- 2" diameter

Materials

- Felt-lined leatherette case (included)
- Glass lens

Performance

- Tool to examine latent prints at a crime scene
- Leatherette case protects the lens from being scratched
