

Rectangular Handheld Magnifier Lens

A handheld, lightweight, cost-effective optical tool designed for the examination of latent fingerprints and other types of physical evidence in both laboratory and crime scene environments. It features a high-quality optical-grade, rectangular-shaped, acrylic lens that is clear, scratch-resistant, and shatter-resistant.

FT337

SPECIFICATIONS

Construction

- 2X lens
- 5X bifocal insert
- Rectangular-shaped
- Handheld
- Optically grade, clear, unbreakable, and scratch-resistant lenses
- Flat and textured handle
