

2-Mode 10X Magnifiers

A handheld optical tool designed for detailed examination of forensic evidence, such as fingerprint record cards and fluorescent fingerprint powders. With 10× magnification, it provides a clear, enlarged view of fine details critical for analysis.

SPECIFICATIONS

Construction

- 2 light modes available:
White
UV-365 nm
- Handheld
- Adjustable focus
- Optically ground and polished glass lens
- 10X magnification
- On / off push button
- UV mode switch
- Supplies 2 AAA batteries

Dimensions

- Magnifier
3.75" x 2.25" x 1.75"
- Measuring scale step
0.1 mm

Performance

- Magnifier is a good central and side sharpness, brightness, and contrast
- 21 mm distortion-free view field
- Used for viewing fingerprint record cards
- UV mode for examining latent prints developed using fluorescent fingerprint powders
- Scale helps in comparing sizes of objects and controlling width of lines

Variations

Model No.	Description	Scale
FT338	2-Mode 10X Magnifiers	Without Scale
FT339	2-Mode 10X Magnifiers	With Scale
