

Alphabet Wound Mapping Marker

These Wound Mapping Markers are an adhesive labeling system designed to enhance wound documentation in clinical and forensic photography. Featuring alphabetical markers (A–Z), it allows users to clearly identify and differentiate multiple wounds within photographs, improving organization and accuracy in medical records.

FT362

SPECIFICATIONS

Construction

- Alphabetical (A–Z) markers
- Helps in wound documentation by keeping photographed wounds organized in the medical record

Materials

- Skin-friendly adhesive

Dimensions

- Sheet
6.4 cm x 26.7 cm
- Marker
1.4 cm x 1.4 cm

Quantity

- 100 sheets

Performance

- Helps accelerate assessment times
- Clinical setting
Used to track present admission wounds
- Forensic setting
Keeps evidence organized and tell the story
