

Pocket Rods

These Pocket Rods are compact, portable measuring tools designed to function as a full-length vertical grading rod while fitting into a small, tape-measure-style case. When extended, it becomes a rigid 6½-foot (2 m) leveling rod, making it ideal for accurate height and depth measurements in the field.

FT395 - FT397

SPECIFICATIONS

Construction

- Looks and can be used like a tape measure
Can also be taken out of its case to be used as a height rod
- Attached at the end is a heavy-duty hook

Dimensions

- 6.5' (2 m) L x 1" W

Materials

- Steel blade
- Tecron-tuff coating
Weather and moisture resistant

Performance

- Comes in the Fractional and Metric System
- Reads at true zero
- Materials allows for rod to become rigid when taken out of the case
Can use your foot or a weight on the end hook to let the rod stand rigid
