

Fluorescent L-Shaped Photomacrographic Scale

Scale is made from durable cardstock, designed for use with UV or forensic light sources. The bright orange finish fluoresces for high visibility when photographing evidence treated with fluorescent powders, making them ideal for documenting latent prints.

FT408

SPECIFICATIONS

Construction

- L-shaped scale
- 3 crosshair circles to help in correcting parallax
- Printed in bright orange
Fluoresces under a UV light source

Quantity

- 5 per pack

Materials

- Heavy cardstock

Options & Accessories

- FS408 standard version

Performance

- Used when photographing evidence
Ex) Latent prints that have been dusted with fluorescent powders
