

UV Long Wave Spot Lamp

A powerful, professional-grade UV-A light engineered for precise forensic and inspection work. With cutting-edge MDL technology, it produces ultra-high intensity output—up to 10× stronger than traditional HID lamps—while remaining lightweight and easy to handle. Its rugged, cool-operating design and pre-focused optics deliver dependable performance in the field.

FT427

SPECIFICATIONS

Construction

- Features micro discharge light (MDL) technology
- Fatigue-free, lightweight, ergonomic design
- Integral bulb / reflector assembly
- Polymer housing
- Pre-focused bulb

Materials

- Fully enclosed solid-state ballast

Utilities / Power

- 120V / 60Hz

Performance

- Delivers up to 10 times the UV-A output of conventional HID inspection lamps
- Design allows for easy installation of replacement bulb
- Stays cool during use to prevent accidental burn or injury
- Impact resistant and dent-proof housing
