BONE CUTTING

Liston Bone Cutting Forceps, Angled

These angled Liston bone-cutting forceps are designed for effective bone cutting during autopsy and post-mortem dissection procedures. The sharp cutting tips support clean, controlled cutting, while the angled configuration provides access from a different working position.

SPECIFICATIONS

Performance

- Designed for bone cutting during autopsy and post-mortem dissection
- Sharp tips support clean, controlled cutting
- Available in multiple lengths

Construction

- Angled configuration
- Sharp cutting tips
- Smooth grip

Materials

- Stainless steel

Dimensions

- Available in 5.5”, 7.5”, 8.5”, and 10” lengths

Note:

- **Not intended for medical applications or patient use.**
