THEFT DETECTION

Invisible Thief Detection Paste, 2 Oz (Various Colors)

The Invisible Thief Detection Paste is a weather-resistant, non-toxic paste applied to items subject to theft or tampering to leave an intensifying, hard-to-wash stain on a suspect's hands and clothing. The transferred residue fluoresces brightly under long-wave UV light, enabling reliable detection and identification.

SPECIFICATIONS

Construction

- Designed for indoor theft deterrence and investigation
- Available in various colors for application
- Color should be compatible to the surface color of the protected item
- Invisible to the naked eye when applied as a thin film

Performance

- Designed for outdoor use without losing effectiveness to the weather
- Detects handling or tampering of treated items
- Transfers to skin and clothing upon contact
- Fluoresces a different color from what was applied under long-wave UV light (black light)

Capacity

- 2 oz

Note:

- **We are unable to provide quotes for this product outside of law enforcement agencies or private investigation markets.**
