THEFT DETECTION

Invisible Fluorescent Crayon

These forensic marking crayons are used to discreetly mark items for identification and theft detection. The markings are nearly invisible under normal lighting but fluoresce under UV light.

SPECIFICATIONS

Performance

- Marks items for identification and theft detection
- Appears invisible on most surfaces
- Fluoresces under long and short wave UV light
- Works on various materials (paper, metal, glass, etc.)

Note:

- **We are unable to provide quotes for this product outside of law enforcement agencies or private investigation markets.**
