BIOPSY WRAPS AND SPONGES

Blue Biopsy Pads, 1000 Count

Mopec's Biopsy Pads stand out for their reliable specimen support, high visibility, and compatibility with standard cassettes, making them a dependable, cost-effective choice for routine use in pathology and histology laboratories.

BI056

SPECIFICATIONS

Specimen Stabilization
- Holds small biopsy tissue securely in place within cassettes during handling, transfer, and processing, reducing the risk of specimen movement, loss, or damage

Cushioning Protection
- The soft foam material helps prevent compression and pressure-related artifacts, preserving tissue integrity during processing

Dimensions
- 1.25″ X 1″

High Visibility
- The blue color provides excellent contrast against most tissue types, aiding quick visual identification during embedding and sectioning

Quantity
- 1,000 per bag

Efficient Reagent Flow
- The open-cell foam structure allows fixatives and processing reagents to flow freely around the specimen, supporting proper absorption
